Responsible Quality

Maker's of the World's First*zero-mercury Hearing Aid batteries.

*Commercially available since 2001

Long-Lasting Reliability

These are the longest-lasting zero mercury** hearing air batteries we've ever made, giving you power when you need it. Hold power up to 3 years in storage.

**based on high-drain performance

This easy, convenient packaging has a dial that is easy to turn, yet the lock and the “click” lets you keep your hearing aid batteries precisely where they need to be to dispense – or stay put. No free-wheeling batteries falling out in drawers and purses with this package! *Energizer* has the **world's first** mercury free hearing aid battery and 100% recyclable packaging to responsibly power you with less impact on the environment.

Product Specs

- The Longest-lasting zero mercury** hearing aid batteries we've ever made.
- EZ Turn & Lock design keeps unused batteries safe and secure.
- Batteries are easily removable from the access tab on the back – but only when you WANT to remove them. You are in control with the *Energizer*® EZ Turn & Lock package.
- Longer tabs clearly marked with the size and color make for easy shopping, handling and insertion.
- 100% recyclable packaging and zero-mercury batteries responsibly power you with less impact on the environment.
- Perforated top of package enables miniaturization of pack for easy transport and storage.

**based on high-drain performance.
