BAI LED Filament GLS A60 E27 4W 2700K Top Mirror Silver Clear 350lm (32W) Dimmable 230V-240V 180° 60x105mm LED-lamp

Lamps with mirror coating have been developed to direct the light by providing certain surfaces with an opaque layer. The coating (mirror or frosted) itself gives a decorative effect even when the lamp is not on. The LED version of the mirror lamps are more durable due to the longer lifespan and low energy consumption. These types of lamps are often used in shop windows, decorative interiors and in other applications to provide an extra touch.
